Headline: Clubhouse Nears Completion

Albuquerque---November 13, 2006---The new clubhouse facility at American RV Park of Albuquerque is nearing completion. Located at the top of Nine Mile Hill on Central Avenue SW, American RV Park has been planning the clubhouse for the last three years.

With over 1800 square feet of floor space the facility will provide plenty of area for groups meeting in Albuquerque. A large number of RV clubs and groups have already expressed an interest in using the facility for their meetings and pot lucks while staying at the park.

The building has a stucco finish outside with a ten foot portico along the front portion of the entrance. Inside, it is beautifully appointed with a full kitchen available for use by the guests. When the clubhouse isn't in use by RV groups, the park is planning to schedule pot lucks, activities, Super Bowl parties and Valentine's Day dances.

The Grand Opening is currently scheduled for January 13, 2007. Make sure to mark you calendar and come out to celebrate with us.
